

IMPRESS 2: Stakeholder Workshop

Closing remarks

Rod Robinson

Stakeholder Workshop, 11th January 2021, virtual

Summary

- Hopefully this workshop has shown some of the highlights and outputs of the project
- Tried to show the breadth of work
 - New studies,
 - instrument development,
 - improved methods
- Project website will remain as a repository for the outputs
- A number of peer review (open access) papers will be becoming available over the next few months

Next Steps

- There is no direct follow on EMPIR project to IMPRESS2
- We will continue to feed outputs into standardisation,
- Also intend to feed into the IED/E-PRTR review presented in the introduction
- There are two new European Metrology Networks
 - European Metrology Network on pollution monitoring
 - European Metrology Network on Clean Energy
- These will collate issues and develop roadmaps for future metrology research
